CITIZEN COMPLAINTS:

During 2012, there were 5 citizen complaints filed with the BPD's Office of Professional Responsibility, **down 71%** from the 17 filed last year. It is noteworthy that this decrease in complaints comes on the heels of a 35% decrease last year from 26 complaints were filed in 2010. Additionally, the Department's volume of documented community interactions (from 99,069 calls for service, 22,119 moving violations, 141,401 parking tickets, 2,452 field interviews and 916 arrests) reaches more than 265K (not to mention the thousands of daily informal interactions during traffic posts, walking beats, community presentations and routine patrol), resulting in a 0.000018% rate of complaints (or 1 in every 53K documented interactions).

These 5 complaints were lodged against a total of 10 individual officers with six officers being the subject of one complaint filed by the BPD. Of the complaints, 60% were against white male officers (6), 20% were against white male supervisors (2), 10% against black male officers (1), and 10% against white female officers (1).

Of the 5 complainants, 2 were white females and 2 were white males, One complaint was logged by the BPD. One of the 5 complaints from 2012 was appealed to the Board of Selectmen. This case was heard by the Board who supported the disposition as unfounded.

The relationship between complainant/officer, nature of the complaint and the finding is below:

	Employee	Complainant	Complaint	Finding
1	White Male	White Male	Off-Duty Conspiracy to Violate Cori Law	Unfounded, Appealed to Board of Selectmen
2	White Male	White Female	Discourtesy	Unfounded
3	White Female	White Female	Discourtesy	Unfounded, pending final disposition
4	White Male Supervisors (2), White Males (4)	BPD	BPD Policy Violations	Sustained
5	Black Male	White Male	General Misconduct	Exonerated

As in years past, the Department continues to utilize the Early Intervention Program (EIP), when appropriate, with employees who receive citizen complaints. The EIP provides for increased supervision and training.
